Skagit Valley College | Mount Vernon, WA | Expected June 2027

Bachelor of Science in Computer Science

Squalicum High School | Bellingham, WA | June 2023

High School Diploma

TECHNICAL SKILLS

Programming: Java, Python, JavaScript | Web: HTML, CSS | Tools: GitHub, SQLite, Flask
Concepts: Object-Oriented Programming, Data Structures, Algorithms, Debugging, Team Collaboration

TECHNICAL PROJECTS

Golf GeoGuessr Game | Personal Project | In Development

- Developing an interactive golf-themed geography guessing game centered on identifying golf course locations.
- Building and refining gameplay features and user interactions through independent problem-solving.

PawPal – Pet Medication Tracking Application | Academic Team Project

- Collaborated on a web application designed to help pet owners organize pet profiles, medications, dosages, and schedules.
- Worked with a team using Python (Flask), HTML, CSS, JavaScript, SQLite, and GitHub to develop and test application features.
- Contributed to application functionality and user experience through iterative development and debugging.

Website Updates and Maintenance | Personal Project

- Updated an existing family website, including page content, layout, and usability improvements.
- Gaining hands-on experience modifying and maintaining an established website.

WORK EXPERIENCE

Grounds Crew Member – Bellingham Golf & Country Club | August 2025 – Present

- Maintain and prepare golf course grounds through mowing, landscaping, and equipment operation.
- Coordinate with team members to complete daily tasks efficiently and meet course standards.
- Apply attention to detail, time management, and safe equipment practices in a fast-paced outdoor setting.
